<Notice>

1. The "Class Enrollment Check Sheet" is created based on the registration on the web. For all registered class enrollment, this table will show the course name, the instructor's name, and the number of credits.

2. Courses that are not entered in the "Class Enrollment Check Sheet" cannot be taken. Students also do not have the right to take the examination for the course.

For courses for which permission must be obtained, even if the course is listed on the "Class Enrollment Check Sheet," students cannot take the course or the examination if they do not obtain permission from the instructor.

3. Students should make full use of the screen printouts from when they registered on the web to check the courses provided on the "Class Enrollment Check Sheet."

4. If there are mistakes on the "Class Enrollment Check Sheet," even if only with some of the information, students should submit revisions by the stipulated deadline. If any of the courses show "Course Error" or "Course Warning" in the "notes" section of the "Class Enrollment Check Sheet," and, if after checking the notes, any points are unclear, students should be sure to contact the following: for Liberal Arts and Sciences Courses, the Office of the Institute of Liberal Arts and Sciences; for School Specific Courses, the Educational and Student Affairs Section of each School. (for the School of Law, and School of Economics, see the person responsible for the particular school in the Educational Affairs Group, Liberal Arts and Sciences Educational Affairs Division; for the School of Engineering, see the Educational Affairs Section, Educational Affairs Division.)

**Even if mistakes in registration are discovered right before the final exam, it is too late.
Students should check the course name and instructor name using "Confirming enrolled classes" on the web.**

2. Class Enrollment Check Sheet – Errors and Resolving the Issue

Examples of "Cause of Errors" and "Resolving Issues" are provided below based on the "Class Enrollment Check Sheet".

<<How to revise>>

◇Correct the courses whose registration code, course name, name of instructor, and number of credits listed in the day and period section.

Click the day, period button of the course listed under "Correct class enrollments" and then delete the code. If there is a course actually being taken, enter the Registration Code for that course using "Correct class enrollments".

◇Revise courses listed in the "Registration Errors" section.

It is not necessary to delete the data since the information is not registered. If there is a course actually being taken, enter the Registration Code for that course using "Correct class enrollments."

1. Example of error (warning) given in the day, period section
<p>(a) W-5: Warning! Credits not recognized (Tue 1st period) <<Cause of error>>: You have registered a course which will not be recognized for graduation credits. The warning was issued because the same course as that for (Thu) 3rd period was applied for. <<Correction Method>>: If you have made a mistake in applying, and the course has been registered, the registration must be deleted.</p>
<p>(b) W-5: Warning! Credits not recognized (Tue. 5th period) <<Cause of error>>: You are being warned that the teacher-training course "Basics of Education and Teaching" will not be recognized for graduation credits. <<Correction Method>>: It is not necessary to revise the course registration for the teacher-training course. The class can be taken as is.</p>
<p>(c) W-7: Warning! Number of credits taken (Fri. 1st period) <<Cause of error>>: You are being warned that the number of English course credits for (Tues) 4th period and (Fri) 1st period totaling 2 credits, which is more than the maximum number of credits allowed in the Term I (1 credit), so one must be deleted. <<Correction Method>>: You must apply for deletion of one of the English courses. Since the general rule is to register for designated courses, apply for deletion of the non-designated course.</p>
2. Examples of errors displayed in the Registration Error section
<p>(d) E-3: Error related to multiple classes per week (Mon. 4th period) [Cause of Error] An error was generated because the student did not register for the part of a multiple-class-a-week course held Mon in the 5th period ("Chemistry Laboratory" is 4th and 5th period on Monday). [Correction Method] It is necessary to add a course for (Mon) 4th and 5th period.</p>
<p>(e) No permission due to adjustment (Wed. 1st period) [Cause of Error] As a result of the adjustments in the controlled enrollment classes, permission was not given to register for the course since a large number of students want to take the course. [Correction Method] Choose a class from the "Class with Openings List," obtain permission from the instructor, and make a supplementary registration.</p>
<p>(f) E-I: No permission to register (Fri. 2nd period) [Cause of Error] An error was generated since the instructor did not grant permission to add the course. [Correction Method] Consult with the Office of the Institute of Liberal Arts & Sciences if registration has been rejected even though you received permission from the instructor.</p>
<p>(g) E-K: Error in designation (Fri. 4th period) [Cause of Error] An error was generated since the student either registered for a non-designated course using "Register class enrollments" or planned to register for a designated course, but mistakenly registered for a non-designated course. [Correction Method] Follow the same correction method as explained in (e) above.</p>
<p>(h) E-B: Mistaken Registration Code (Day, Period not clear) [Cause of Error] This is an error because you entered a Registration Code (0015684) that does not exist. [Correction Method] Follow the same correction method as explained in (e) above.</p>
